D60
EXQUISITY THAT SUITS YOU

Diversified Appearance

Based on the rigid line inherited from the design of SAIC MAXUS concept car TARANTULA, D60 provides various optional external accessories such as dynamic grille, wheel hub and caliper, shaping your personality freely.

Lighting Design

The full LED split matrix headlights with the style of the Big Dipper and the penetrating LED diamond taillights echo with each other.

Dome Panoramic Sunroof

With the sunroof area of 1.1 sqm and the lighting area of 0.86 sqm, it provides a bright driving space. Adopting a full shading electric sunshade curtain, it achieves 100% light-proof effect.

Three Kinds of Large Space Seat Layout

Three large space seat layouts are available, 2 + 3, 2 + 3 + 2 and 2 + 2 + 2, satisfying diversified driving demands and bringing a deluxe experience to everyone.

Outstanding Ratio of Ultra-High-Strength Steel

The body structure adopts a closed-loop frame structure, significantly increasing the overall safety level and rigidity. The ratio of high-strength steel accounts for 65%, and the ratio of ultra-high-strength steel reaches 25%, making the whole vehicle caring for the driving journey as an iron bastion.

1.5TGI Direct Injection Turbocharged Engine + 7-speed DCT

D60 adopts the perfect combination of 1.5TGI direct injection turbocharged engine and 7-speed DCT. The maximum power is 124KW/5500rpm and the maximum torque is 250N·m/1700-4300rpm. It only takes 200 milliseconds to complete the shift. With a smooth and efficient power output, it triggers the driving passion all at once.

First-class Chassis Adjustment by British MIRA

The combination of classic front McPherson independent suspension and multi-link independent rear suspension is delicately adjusted by British MIRA, the world-class chassis adjustment expert. The chassis is not only solid and flexible, but also features precision and comfort. Besides, it features EPS system to maintain the accuracy and smoothness while cornering.
