EXTERIOR DESIGN

G50 PLUS

Maxus G50 Plus Elegance of Details

With an elegant and wide exterior design that suggests a spacious interior space, the Maxus G50 Plus provides a luxurious driving experience, as the front design of the lights integrated with the grille and the rear design of the lights integrated with the tailgate add a smooth, streamlined character that suggests spaciousness and reliability.

LED Headlights:

The LED headlights in the Maxus G50 Plus feature the design of bird wings integrated with the front grille of the car, giving it a modern and harmonious character from the front and side angles.

Front Grille:

The front grille of the Maxus G50 Plus is designed with a wide and sweeping design along the front end of the car, combined with the front LED lights. The wide grille provides ventilation and cooling for the engine.

17" Aluminum Wheel Hubs:

The Maxus G50 Plus was designed with a panoramic sunroof that creates a feeling of spaciousness and freedom, extending along the roof of the car, giving a distinctive riding experience for all passengers thanks to the natural lighting and space provided by the panoramic roof.

Roof Rail:

The G50 Plus features a stylish and functional roof rail, designed to provide a comfortable and practical way to carry luggage and outdoor equipment thanks to its strong and durable construction that can withstand loads in extreme weather conditions.

Electrically Opening Rear Door:

Maxus G50 Plus comes with an electric tailgate that facilitates the loading and unloading process and facilitates access to luggage with no effort.

Panoramic Sunroof:

The Maxus G50 Plus was designed with a panoramic sunroof that creates a feeling of spaciousness and freedom, extending along the roof of the car, giving a distinctive riding experience for all passengers thanks to the natural lighting and space provided by the panoramic roof.

INTERIOR FEATURES

More Than Just a Space

The new Maxus G50 Plus provides spacious interior space that can accommodate 7 passengers, with an elegant and modern design that combines the latest technologies to provide a comfortable and luxurious riding experience for passengers, with different characteristics of the leather seats and smooth sound distribution and ventilation techniques for all rows of the car.

6 Speakers System:

The Maxus G50 Plus provides a high-definition audio system with 6 speakers that allows smooth passage of sound to all rows of the car, giving an amazing listening experience for all passenger area.

7 Leather Seats:

The Maxus G50 Plus features 7 leather seats with a wide area in 3 rows with comfortable features that maintain an elegant and practical appearance, and each row gives different seating options to distinguish the passenger's experience in the different rows.

12.3-inch Central Touch Screen:

Maxus G50 Plus features a 12.3-inch smart central touch screen with a wide design that matches the shape of the interior cabin and blends into the shape of the front AC. In addition to the Apple CarPlay feature, which provides access to a variety of phone functions in a seamless manner.

Mobile Wireless Charging:

Maxus G5 Plus provides a fast and efficient charging experience thanks to the wireless charging feature. Its elegant and smart design prevents slipping or scratches. It is located in the cockpit, facilitating quick access for passengers.

Automatic Air Conditioning System:

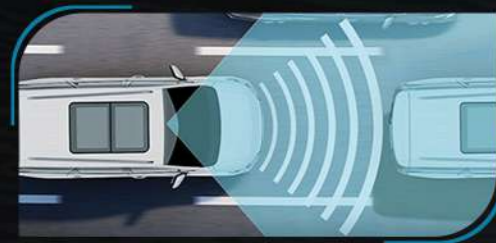

The Maxus G50 Plus features an advanced automatic air conditioning system that ensures a comfortable and refreshing driving experience for all passengers by ensuring optimal temperature control, air circulation and humidity management.

Front Seats with Different Adjustment Positions:

The Maxus G50 Plus provides maximum luxury and comfort in the seats with the feature of electrically adjusting the front seats in 6 different directions for the driver and 4 different directions for the passenger.

SAFETY FEATURES

Electronic Stability Control

Helps to prevent accidents by detecting and reducing loss of traction. It automatically applies brakes to individual wheels and adjusts engine power to help the driver maintain control.

Rear Parking Sensors

The rear parking sensors in the Maxus G50 Plus help provide a clear audio and visual warning when approaching potential obstacles by using ultrasonic technology to detect objects behind the car in limited visibility situations.

Cruise Control

The Cruise Control in G50 Plus helps maintain a consistent speed and distance from other vehicles. With advanced sensors and precise control, it helps prevent accidents caused by distracted driving, and excessive speed.

Airbags

The Maxus G50 Plus features airbags for both the driver and passenger, in addition to side curtain airbags that protect passengers from side impacts in case of an accident.

Hill-Start Assist Control

The Maxus G50 Plus is equipped with an advanced hill start assist system to provide an extra layer of safety and comfort when driving on inclines to ensure smooth and controlled ascents on steep inclines, giving you peace of mind when navigating difficult terrain.

PERFORMANCE

1.5 Turbocharged Direct Injection Engine

With its direct injection turbocharged engine, the new Maxus D60 Max can produce up to 170 horsepower while using less fuel.

Wet DCT Transmission With 7 Speed

Its advanced wet DCT 7 speed transmission helps in providing exceptional cooling capabilities by reducing friction and heat. And providing optimal torque of 285 N.M.

Dimensions

The dimensions of the Maxus G50 Plus (4825 length, 1825 width, 1800 height) provide ample interior space for passengers and luggage, giving a comfortable and practical riding experience.
