>> SAIC MOTOR

SAIC Motor is the largest auto company on China's A-share market (Stock Code: 600104.SH) with a total equity of 11.683 billion shares. SAIC Motor is striving to grasp the development trend of the industry, accelerate innovation and transformation, and grow into a comprehensive provider of auto products and mobility services from a traditional manufacturing enterprise.

In 2019, total annual sales of SAIC Motor reached 6.238 million units, with a domestic market share of 22.7%. While maintaining the leading position in the domestic auto market, its sales of new energy vehicles reached 185,000 units, achieving a YOY growth of 30.4% and keeping the momentum of rapid growth. Whole vehicle export and overseas sales reached 350,000 units, achieving a YOY growth of 26.5%, ranking the first among domestic auto groups.

>> SAIC MAXUS

SAIC MAXUS Automotive Co. Ltd (hereinafter as referred to as "SAIC MAXUS") is a wholly-owned subsidiary of SAIC MOTOR CORPORATION LIMITED. Established on 21st March, 2011, the company is located at No.2500 Jungong Road in Shanghai. With a registered capital of 3.794 billion RMB, it owns Wuxi branch, Nanjing branch, SAIC MAXUS Motor Home Science & Technology Co., Ltd, Wuxi Shenlian Special Purpose Vehicle Co., Ltd, SAIC MAXUS Sales and Services Co., Ltd.

Products matrix of "SAIC MAXUS" brand includes MPV, SUV, RV, wide-bodied light passenger vehicle, pick-up and other passenger and commercial vehicles as well as light and medium size van and various special purpose vehicles under "SAIC Yuejin" brand. The company has an annual capacity of 200,000; Nanjing production base is responsible for producing "SAIC yuejin" light and medium size cargo van with an annual capacity of 100,000; Liyang production base is the world's largest motor home manufacture with a production capacity exceeding 25,000. The company has also set up production bases in Malaysia and Thailand.

As an international brand of SAIC Motor, SAIC MAXUS is honored to have served the Youth Olympics, APEC, G20 and other high-level international conferences with its state-guest-level quality. In terms of overseas market, products of SAIC MAXUS cover 48 countries and regions in the world with Australia, New Zealand, UK, Ireland and other developed countries contributing most to overseas sales, SAIC MAXUS is becoming a Chinese brand marching towards the world."

Adhering to its core brand value of "Technology, Trust, Ambition", SAIC MAXUS initiated the C2B business model in the automobile industry which allows real-time, online and transparent interaction with users along the entire value chain and customized production as well as intelligent manufacturing. Through business model and commercial model innovation, SAIC MAXUS dedicates to be "driven by users, providing automobile products and lifestyle service with global competitiveness and creating value for users."

Heritage with a history of 120 years

Time is the catalyst for qualitative leaps
 Profound accumulation leads to new life

SAIC MAXUS – The Legendary International Brand of Vehicle

As one of Europe's most influential and recognizable commercial vehicle brands, MAXUS not only accumulates a century-old development experience of commercial vehicles and strong technologies, but also leads international commercial vehicle market with its constant efforts of innovative expansion. It is now being seen all over the world and is known as a legendary international brand of commercial vehicle.

In 2009, SAIC Motor, the world's Fortune 500 enterprise, made a full acquisition of British Motor Corporation's technology platform and intellectual property rights of MAXUS brand. MAXUS was introduced into China and named as "Da Tong" in Chinese. This initiative not only set a new milestone in the development of commercial vehicles in China, but also ushered a brilliant new chapter of the legendary brand MAXUS.

One century ago, British LDV model came into birth, which can be traced back as the legendary start of Maxus V80.

1896 **Legendary Origin**

1949 Morris J was launched

1981 **Leyland Joined In Rover**
 Freight Rover department was established in 1981, marking Sherpa's joining in Rover Group

1917 **Royal Family's Favor**

As the house of Windsor came into power, Leyland models had the honor of joining imperial motorcade. 1974-1982 Sherpa, Leyland was launched

1907 **Fast Development**
 Lancashire Group in fast development was officially re-named as Leyland Motor.

Sherpa Freight Rover became a part of Land Rover brand.

1989-1993 200 series and Leyland DAF were launched.

1984-1989

Freight Rover 300 Series Large Edition of 200 Series.

1987 **Second Transition**

Commercial department in Rover Group joined in DAF Trucks Group, turning Freight Rover into Leyland DAF.

1989-1993 400 Series Leyland DAF

1990

1982-1984

1993-2006 LDV Co. Ltd was established. Pilot LDV was brought out as a narrowed edition of Convoy.

1993 **New Start**
 LDV Limited was officially established.

2004 **Birth of New Vehicle**

A new model of commercial vehicle named Maxus, the prototype of LDV V80, was created by LDV, becoming a shining star in the history of commercial vehicle.

2004-2009 LDV Maxus

2009 **Legendary Rebirth**

SAIC acquired the intellectual property right of LDV MAXUS. The legendary "MAXUS" came to the stage.

2.0 T Diesel Engine high-performance

Maxus T70 Pro Diesel Engine 2.0 T turbocharging technology, with 161 Horsepower and high torque with peak torque at 375 N.M, Maximum power 120 KW In addition to the 6-speed manual or automatic transmission

T70 Pro is International leading engine technology, to increase comfort for you and all passengers

All-terrain Chassis System

Professional Chassis Tuning
Professional Off-road Player Level Hardcore 4WD System, Constant distribution of front and rear power with instantaneous torque amplified 2.5 times

Three Driver Modes

ECO Mode: applicable to paved roads or no-load and light load for better fuel economy.

Normal Mode: applicable to gravel pavement or loading.

Power Mode: 5% power increase while fuel consumption only increase by 2%, applicable to complex road conditions or heavy loads for stronger performance.

A four-wheel-drive system

BorgWarner's time-sharing four-wheel drive and the same four-wheels drive system with well-known off-road brands can switch between two-wheel drive and high-speed four-wheel drive without stopping. At the same time, the 4L gear can enlarge the torque by 2.5 times, making it easier to get out of trouble.

Rear Axle Dirrrential Lock

Rear axle differential lock comes from Eaton, USA, automatic locking available when wheel speed difference reaches 100 rev/min, a must for bad road conditions.

Intelligent Technology

- High-Resolution Touch Screen (10")
- Three Driver Mode NORMAL/ECO/POWER
- Curise Control
- Parallel Assist
- Halogen Headlights with Rear Fog Lamps
- Rain-Sensing Wiper
- Auto Rear Mirror

Comfort & Convenience

- 6MT / 6AT
- 6 Ways Adjustable Manual Driver Seat
- Passive Entry & Passive Start
- Automatic AC
- NVH Mute Design
- Bluetooth
- 12V+USB
- Multifunction Steering Wheel
- One-button Power Window with Jam Protection
- Rear leg heating
- Electronic Inner Anti-glare Rearview Mirror

Safe Driving

- ANCAP Five-star Collision
- Airbags
- LED Headlamp With Adaptive Front System
- Lane Departure Warning System
- Fatigue Driving Warning
- ESP (including ABS+EBD+HHC+TCS+HBA)
- Reverse Camera
- TPMS Tire Pressure Monitoring System
- Double Pretensioner Seatbelt
- Four wheel Disc Brake
- Rear Parking Sensor

Global Leading Technology

Equipped with Italian VGT variable section turbocharged VM diesel engine adopts BOSCH third-generation high-pressure common rail direct fuel injection technology low-speed and high-torque with combined consumption at 7.5L/100KM Upgradeable Euro 6 emission standard Full-terrain chassis stsyem using high-strength steel and full-process robotic welding Three driver modes available, combined with Bogwarnatime-sharing four-wheel drive system and Eaton axle mechanical different lock, easy to conquer all road conditions

Camera and Rear Sensor 👍

Airbags 👍

3-Point Seatbelt for All Passengers

Double Pre-tensioned Seat Belt 👍

Ground breaking equipped with double pretension seat belt in the rear to protect passengers at all times

Strict Road Test 👍

EPS

Tire Pressure and Temperature Monitoring

Real-time monitoring of tire pressure and temperature to effectively avoid the danger caused by a puncture, greatly improving driving safety.

ANCAP

SAFETY ★ ★ ★ ★ ★

Rear Air Conditioning 🍏
Air conditioning in the back row to distribute the cold throughout the car

PEPS Remote Keyless Entry 🍏
Remote Keyless Entry completely revolutionized pickup configure for comfort.

The First to Adopt 10.25-inch Big Screen 🏆
Industry's first High-Resolution Touch Screen (10.25 inches) for a more enjoyable driving experience.

Front Row 150° Flat 🍏
The front seats can be flattened up to 150 degrees, and the humanized design superior to that of the same class pickup.

The Whole Car is More Environmentally Friendly
The the lead in adopting EPP environmentally friendly water-soluble paint, RTO purification system, environmentally friendly leather and environmentally friendly adhesive to effectively reduce VOC emissions in the car. IT is all natural both inside and outside the car.

6AT - MT 🏆
The pickup with 6AT has adopted the imported Punch 6AT from France. It is the same as the famous luxury brand. After more than 1 million reliable verifications, the pickup response quickly, bringing high smooth riding experience with lower fuel consumption.

Rear Row Space Exceeding Similar Class 🏆
The rear row spaces has reached 965mm creatively, making it the pickup with largest rear space domestically.

Total Gradient Leaf Spring Technology 🍏
For the first time, the total gradient leaf spring technology is adopted, which takes advantage of the traditional suspension, and innovatively introduces a full-gradient rear spring. By redesigning the leaf spring structure, it can bring higher suspension load bearing performance and take into consideration of both handling and ride comfort at the same time.

Maximum Storage Space 🏆
21 large storage spaces in the whole vehicle, fully meeting diversified storage demands.

Second-row Seat and Folding Function 🍏
The design of folding function of second-row seats greatly expands the loading space of the whole vehicle

Electric 6-way Adjustable Driver and Front Passenger Seat 🏆
First to carry 6-ways electric adjustment leading in the industry, bringing fun riding experience.
